EXPERTISE

Apple platforms

Swift · SwiftUI · UIKit · AppKit · Swift Concurrency · Combine · StoreKit 2 · SwiftData · Core Bluetooth · SpriteKit

Web & APIs

TypeScript · React / Next.js · Node.js / NestJS · PostgreSQL

Delivery

Architecture · Testing · Performance · CI/CD · AI-assisted dev · Mentoring

LANGUAGES

- Serbian — Native
- English — Full professional

EDUCATION

VPTS Užice — Information Technology

Specialist of Applied Studies, 2013–2014

GPA 9.63 / 10

Undergraduate Applied Studies, 2008–2013

SOFTWARE & PRODUCT ENGINEERING

Miloš Stevanović

Senior Software Engineer

iOS · macOS · Web · Games

Open to full-time & contract roles · Remote or relocation (visa sponsorship required)

10+ years in native iOS delivery

25+ shipped apps across App Store & Mac App Store

4 platforms: iOS, macOS, web & games

PROFILE

Senior software engineer with **10+ years in native iOS delivery** and **25+ shipped apps**. My independent work spans macOS products, web platforms and games — from architecture and implementation to integration and release preparation. I pair AI-assisted development with hands-on engineering review and build/test validation.

PROFESSIONAL EXPERIENCE

Independent Senior Software Engineer
Sep 2026 – Present

Self-employed

- Builds native Apple apps, web platforms and games, from architecture and API integration to release preparation.
- Uses coding agents with hands-on review and build/test validation; available for full-time and contract work.

Senior iOS Developer (Senior Engineer)
Jan 2022 – Aug 2026

Endava · AI Champion (Dec 2025 – Aug 2026) · Career Coach (Mar 2024 – Aug 2026)

- Led iOS development for insurance and telecom clients, owning application lifecycles from concept to production with SwiftUI, UIKit, Combine and MVVM / Clean Architecture.
- Worked on Ding payment and account flows and the Admiral Insurance app (see selected client projects).
- As Career Coach, mentored iOS developers through growth plans and 1:1 sessions, conducted technical interviews and contributed to coding standards.

Senior iOS Developer
Nov 2019 – Jan 2022

Darwin Digital

- Built healthcare apps, including AI-supported pain-detection applications, with secure data handling in HIPAA-sensitive environments.
- Stabilised inherited apps and improved responsiveness and memory use together with research, data-science and backend teams.

iOS Developer (Junior to Mid-level)
Jul 2015 – Nov 2019

Comit International

- Developed social, logistics, on-demand and betting apps with Objective-C, Swift, UIKit and Firebase; maintained both modern and inherited codebases.

MILOŠ STEVANOVIĆ · SELECTED WORK

Client delivery & independent products

A cross-section of shipped work — enterprise mobile for Endava clients, a revived Bluetooth smart-door app, and a portfolio of my own apps on the App Store and Mac App Store.

Explore the complete portfolio & app gallery →

CLIENT PROJECTS

ENDAVA · 4 years

Admiral Insurance

Contributed to the Admiral Insurance iOS app over four years at Endava, delivering a consistent mobile experience.

Swift · SwiftUI · Combine · CI/CD

ENDAVA · 2023 – 2024

Ding — Global Mobile Recharge

Secure payments and account flows for the iOS app of a platform serving 150+ countries.

Swift · Stripe SDK · Core Data

FREELANCE · 2024 – 2025

Schüco SmartTouch

Revived an inherited smart-door app: Bluetooth unlock, Touch ID, remote access and live door status.

Swift · Core Bluetooth · Push Notifications

INDEPENDENT PRODUCTS

MACOS · Mac App Store

Translato

Native macOS translation workspace

Bilingual editing, local translation memory, document previews and OCR.

SwiftUI · SQLite / GRDB · PDFKit · Vision

IPHONE & IPAD · Native products

Pet Buddy & NoteVita

Native iPhone / iPad products

Pet-care timelines, reminders and PDF reports; offline family health records with encrypted backup/import and purchase flows.

SwiftUI · SwiftData · CryptoKit · StoreKit 2

GAMES · iOS · iPadOS · macOS

Touchline Atlas

Football management games

iPhone/iPad and native macOS experiences for career progression, squad management, tactics and saved games.

Swift · SwiftUI · AppKit · Simulation

WEB & MOBILE · In development

Sjaj

Web, mobile & API platform

Cleaning-business platform: manager dashboard, customer booking, job checklists and shared web/mobile contracts. Portfolio shows seeded demo data.

TypeScript · Next.js · React Native / Expo · NestJS · PostgreSQL

WEB · Customer workspace

Wellness Spot

Responsive customer workspace

Customer views for measurements, progress, nutrition plans and package status, with desktop and phone navigation. Portfolio uses synthetic data.

TypeScript · React · Next.js · Responsive

GAMES · Various release stages

Cute Bubble Chase, Neon Rebels & BugCorpGame

Arcade gameplay and power-ups; solo / local-network co-op shooter; deterministic card-duel systems.

SpriteKit · SwiftUI · Network.framework · Gameplay Systems

LEADERSHIP & THE HIVE

Engineering with AI, reviewed by hand

Former Endava **AI Champion** and **Career Coach**. Built **The Hive**, a personal AI-assisted development system used across independent apps, web platforms and games — every change passes hands-on engineering review and build/test validation.

How I work

- Own the full lifecycle: architecture → implementation → release.
- Ship on Apple platforms first, extend to web where it adds value.
- Mentor, interview and raise coding standards on the team.
